CONTACT INFORMATION	Department of Linguistics Northwestern University 2016 Sheridan Rd, Evanston, IL 60208 USA	a.goodkind@u.northwestern.edu http://sites.northwestern.edu/adam/
RESEARCH INTERESTS	Information theory in linguistics, especially as it relates to understanding bias, language production, communication ease, and cognition. Recent work has used vector semantics for understanding autism, and measuring linguistic predictability via eye-tracking and computer typing production. Findings have relied on natural language processing, machine learning and statistical modeling.
